Dear Sirs,

I have been using your "Golden Fleece Dip" for the cure of scab in sheep during the whole year and I have not seen its equal in these parts.—It is an effectual and rapid cure, it not only destroys the scab in a very short time, but soon produces a new growth of wool.—

I have delayed writing you sooner in order that I might be the better able to judge of the effects of the medicine and to compare it with the remedies used by other sheepfarmers, none of whose flocks are at all so free from scab as mine, although they have been working far more constantly than I, to keep down scab, as regards its cost, it is the most profitable of any I have ever used or know of.

You are at liberty to use this as you may see fit and remain

Dear Sirs,
Yours truly
WILLIAM TUMBELTY.

DR. WILDE'S REPORT.

CITY IMPROVEMENT WORKS.

The Water Supply is the only branch of the City Improvement Works that at present meets the wants of the inhabitants, and the only one, therefore, that yields any revenue. The water is in great demand, and if the extension and distribution of the present piping, or the horse-power of the machinery at present working, were sufficient, the very many applications for water might have been satisfied, and from 10,000 to 16,000 houses would now have been supplied with the element instead of only 6,085.

But even in the event that the piping would have been sufficient for the demands, the machinery, which already has passed the term of guarantee of good working, would have been inadequate for the increase in the provision of water. Thus last year, when the warm season approached, some urgent reforms were carried out in same, that it might answer the extraordinary task demanded.

Although the concessions of new services were suspended in the emergency, and the machines were kept working twenty hours per day, the Plaza Lorea deposit was empty several days last summer.

The water distributed under such circumstances, and lacking the necessary pressure, reached with difficulty the distant districts and the top storeys of the houses.

Thanks to the metre of revolutions applied lately to the machines we can verify, with pretty good accuracy, the volume of water impelled by them into the city. During the period dating from the 1st of August, 1879, to same date in 1880, the average daily supply amounted to 4,975 kilograms 465, which cost $1,935 per kilogram; and having taken the average of the last 14 days of September, 1880, the result was 4,028 kilograms 79.

Working daily 18 hours, the machines ejected 6,644 kilograms 956

Each house, including 'surtidores,' consumed 894 litres 560 on an average, and taking 15 inhabitants to every house, we see that each individual uses 89 litres 46.

Although to-day much water goes to waste, as the consumer, who does not receive it measured, does not economise same, the provision must be increaeed somewhat when the domicile-sewers begin to work.

With 181 litres, the volume offered by Mr. Bateman's calculations, each inhabitant would enjoy a moderate provision.

If our hygienic precautions were more prudent and more orderly, and if we relied on good organisation, it would not be necessary to increase much the actual provision per inhabitant, as the city of Buenos Aires, in pressing cases, can fall back on the river that bathes its shores on the north and south.

The losses occasioned by escapes have been greatly reduced since the new patent keys have been employed. The application of these small instruments comprise many other advantages which are referred to in another chapter of the report.

Otherwise the supply of water is regular and satisfies the public; only in the months of maximum consumption, now and then, a complaint arises.

MISIONES
AND ITS SUITABILITY FOR SUGAR-CANE CULTIVATION.

To the Editor of the *Standard*.

Dear Sir,

Complying with your request I have pleasure in handing you a few notes made by me on a recent trip to the Rincon de Garruchos in Misiones, with a view to ascertain if that district was well adapted for the cultivation of sugar cane.

Situation.

Garruchos is distant from Buenos Ayres about 600 miles, and is situated in the territory of Misiones in latitude 27° 30″ S, and longitude 57° 40″ W. It is bounded on the north by the River Chimeray and on the south by the River Garabi, having frontage on the River Upper Uruguay of about 7½ miles. The River Chimeray takes its rise from the mountains in Misiones, and which comprise the first range of the Cordillera, and is augmented by the numerous springs both north and south of the river; this river never dries up, and has when the River Upper Uruguay is low, sufficient water for irrigation or for water power, in many places having a direct fall of 5 and 6 feet. The river is very winding and runs a little to the southward for some 5 of 6 leagues, then again to the north. The River Garibi is supplied from springs and drains of the lands it passes near; still at all times of the year there is plenty of water. The River Upper Uruguay is supplied by the small rivers both from the Argentine and Brazilian territories; the rise of the river is periodical, but is influenced by the rainfall, and consequently rises and falls rapidly. When the river is high vessels of any draught can navigate the river, but when low there are places not having over 18 inches of water. The Upper Uruguay in front of Garruchos when at its lowest has a depth of 60 feet, but 100 yards above the port there are rapids where the current is very strong.

Climate.

The climate of Garruchos is exceedingly healthy, which is due to the high lands; frost is rarely seen, the winter being more like an English summer; although the heat in summer is great, the effects are less felt than in many other parts having a grade of heat such as Tucuman and Rosario; this is due to the breeze not being so hemmed in as in Tucuman. At certain places on the River Upper Uruguay fever and ague is prevalent, this is due to the humid state of the soil, the miserable class of huts which in many cases have no roof, whilst floors are never boarded. Although in the day time the sun is very hot, at night the temperature is rather cool; this is caused by the heavy dews that fall, thereby cooling the atmosphere and soil.

Soil and Vegetation.

The lands are of a chocolate colour resembling the Cuban soil, vegetable and slightly ferruginous: the lands are undulating, having gentle slopes and where these slopes meet running north and south, there are springs.

The hills vary in height from about 40 to 100 ft.: the slopes of the hills facing the north are best adapted for cane, being sheltered from the cold south winds in the months of June, July, and August. Few single trees are found there, but groups of forests varying in size from 5 to 25 acres in extent. Low lands are scarce, but in one place rice can be produced without irrigation. The camps are well adapted for fattening cattle.

Productions

Garruchos produces the following:—

Tobacco, beans, peas, onions, mandioca, maize, rice, and sugar cane; cotton gives an excellent result: in fruit trees there are citron, peaches, figs, grapes, lemons, oranges &c, and in many places there are orchards of peach trees.

Materials.

Excepting lime, all classes of building materials are found on the

SUTTON'S Famous Home-Grown Seeds 'SPECIAL' collections of Vegetables and Flowers. Choisest Assortment. Sole Agents MOORE & TUDOR, 93 Main

spot; the bricks we saw were of excellent quality, and some roofing tiles made there over 100 years ago by the Jesuits show that the earth is well adapted for bricks.

The class of trees found are as follows:—

Uruñdei
Canapistula Colorado
Andigo
Grapeapuña and Cabrena
Laurel

These 5 classes of wood are used for railway sleepers, posts &c, &c.

Loro Blanco, soft wood, good for beams &c.

Lapacho, Timbo, and Natambo Blanco, good wood for furniture.

Communication

The communication is defective, but this arises from the fact that there is not sufficient produce at present to stimulate any one establishing a regular line.

The voyage to-day is made as follows—

Buenos Aires to Concordia per steamer about 28 hours

Concordia to Caseros per railway do 5½ do

Caseros to Santo Tome per steamer do 65 do

Santo Tome to Garrucho by land do 24 do.

If the wind is favourable a boat can make the last mentioned trip in 30 hours, otherwise it might take 3 or 4 days, but this could easily be remedied by having a small steam launch, and then the voyage can be accomplished from Buenos Aires, including a night in Concordia and a night in Monte Caseros in 108 hours, calculating for the launch a speed of only 5 miles per hour in the river against the current.

From the port of Garruchos there is a cart road to Itapua, a distance of 28 leagues, situated on the Alto Parana.

Cane

The sugar cane grows luxuriantly and is of very large diameter and this without any cultivation whatever, the cane being only stuck in the ground and nothing done to it afterwards, either to loosen the soil or bank it up around the plant.

With cultivation I consider the cane far superior to that of Tucuman, giving a greater yield per acre and a higher density of Juice Baume.

General Remarks

Settlers that have been here for 20 years assure me that any kind of Tropical plants and fruits can be grown and with little labour, the land being so well adapted for agriculture.

Cane has not been grown in quantity for the simple reason that the inhabitants are poor, and have no means of purchasing any kind of machinery to cultivate the cane, and there was no factory where the cane could be sold; for this reason, cane cultivation has been neglected, only sufficient being grown to supply the necessities of the families; one of the settlers has a small wooden mill situated in the Rincon de Garabi.

On the River Uruguay, in the Brazilian towns of S. Borja, Itaqui, and Uruguayana about 80,000 arr. of sugar are consumed annually; added to this are the towns in Argentine Republic of Santo Tome, Santa Cruz, Alvear, San Pedro, Paso de los Libres. Monte Caseros, and towns of the Eastern Argentine railway including Concordia; the consumption annually cannot be under 200,000 arrobas of sugar.

The Pernambuco sugar sells today in Monte Caseros at 3 gold dollars per arroba, and rum at 50 gold dollars per pipe.

In view of the foregoing data, I am convinced that Misiones offers great inducements to cultivate sugar cane.

Believe me
Yours faithfully
William J. Hill

COLON THEATRE.

La Grande Duchesse, which the public had been anxiously looking forward to, was splendidly given on Monday night, unfortunately to a small audience. Had this opera been announced in anticipation, every amateur of French operabouffe would have been there.

Paola Marié is good in every part she takes, and her Grande Duchesse is certainly one of her best performances. The song of 'Dites lui' was deservedly encored, but the finest part of all her performance was the last act, which confirmed the opinion I entertained as to her being really a great artiste. All the other characters were well sustained, the weakest being the Prince Paul.

Between the second and third acts Paola Marie sang the 'Le trou de la Serrure,' so celebrated by Therese in Paris. It was fortunate that the house was not crowded with the 'high life,' for had it been so there certainly would have been a panic. This song has created roars of laughter for years past, and is well-known to everyone who has resided in Paris. Therefore being given on the same night as the Grande Duchesse, it was really 'un embarras de richesses,' and will be long remembered by the 'habitues' of Colon. Madlle. Helena Leroux sang two 'morceaux,' with which the public had the opportunity of judging of the immense power of her voice, which is quite in proportion to her physique.

Before this attractive company take their departure we are to have a grand treat—Barbe Bleu. There is but one thing to be regretted, and that is, that the company leaves us so shortly—It may be for years, it may be for ever.

The Old Stager.

EDITOR'S TABLE.

The weather and the aspect of the Chilian question alike improved yesterday; in fact, if both do not get 'settled' soon, there'll be grief. The Chilian Congress is, it is said, summoned for to-day, to discuss the Treaty, and, as a waste of eloquence is not one of the failings of the Chilian Parliament, it is hoped that the whole discussion will be concluded by Saturday, 22nd, and the Bill passed. Another version is that our neighbours' Congress will not be summoned till the middle of November, but that the Bill is certain to pass then. 'The English of South America' do not, apparently, believe the in old axiom as to delays being dangerous.

We are most happy to note that General Kilpatrick, United States' Minister in Chile, is much better and has every chance of complete recovery.

We salute and compliment our excellent colleague *La Prensa* on its 12th anniversary. Our esteemed colleagus is a 'diario serio,' and although we always eschew seriousness, when possible, we cheerfully pay our tribute to the high merits of our colleague and wish it many years full of prosperity and 'pesos.'

Captain Manton is now carrying all before him with a high-hand—We beg pardon: with an 'Alta voz'. His famous telephone has now been ordered by the Foreign Minister, Dr Irigoyen, as a means of communication with all the Government departments, the Capitania, &c. He has also obtained a concession for putting up his lines in Belgrano, and the Provincial Government has ordered all the camp municipalities who want to enjoy the blessings and boredom of telephonic communication, to use no other than the 'Alta Voz.' The worthy Captain will soon have the whole province in his hands, telephonically speaking. It could not be in better.

The first Spring Show of the Horticultural Society comes off to-night, and we have cut the following titbit of news from a recent exchange, for the benefit of the Committee and their friends. A camelia with a perfume is as rare as a Queen Anne's farthing:—"The Vienna *Vaterland* reports that the gardener attached to the Palazzo Ferentino, at Naples, has, after the labor of years, succeeded in raising camelias having a distinct and fragrant perfume. The perfume is described as resembling somewhat a mixture of jonquil and pythosphorm, and as being very delicate. The flowers themselves are of a tender pale rose tint, and it is only in flowers of this color that the agreeable fragrance has been hitherto obtained, although the gardener has endeavoured to impregnate white camelias with it."

We read in the Irish papers an advertizement from the Bulrich & Co. of Dublin—Messrs Ganly and Sons, Usher's Quay—calling an auction of 10,000 sheep, 200 cows, roadsters, hunters, &c, on the estate of Mr Samuel Barber, of Dhulough, Co, Mryo. *Ten thousand* sheep is a mere bagatelle for a River Plate farmer, but this is the first time we have heard of such a number owned by one man in any part of the United Kingdom, and the sale points to the present sad condition of poor Erin. For what these 10,000 sheep are worth in Mayo, 70,000 or 80,000 could be bought in '25 de Mayo', and perhaps Mr Barber might do worse than try what the exchange would do for him.

A party living near the Politeama Theatre, and who, with his family, is kept awake at night by the applause of the public there, is going to take an action for damages against the circus troupe, for headache and sleep lost, a lawyer having expressed an opinion that he has a case. He has asked his neighbours to join him in the action, but they opine that there would be a better chance if the action be taken against the Company for firing cannon in the [illegible] which it appears, is part of the performance. The lawyer thinks the action will lie, but we believe he is prematurely bald.

We read the other day, in a scientific paper, a curious physiological and psychological fact, which caused us much astonishment, viz, that 'any person who is prematurely bald may safely be set down as a deceiver and a liar.' Our experience of life in no way tallies with this sweeping assertion, but the scientists affect to rule everything now a days. We are happy to say that we have not a single prematurely bald subscriber on our lists.

The following paragraph from a recent exchange will interest our matron readers. The example is an illustrious one and well worth following—'The Princess of Wales dresses her children in the most simple fashion, and not even on the most fashionable occasion, has their dress ever exceeded a cost of £2. Their summer dresses are of washing prints.'

High Life is going, going, and will soon be gone. The *Nacional* gives a long list of families who have left the city for their summer quarters

A Spanish gentleman who arrived last week went to the University and asked the porter to be allowed to go in and see it. The man was so astounded at the idea of anybody wanting to look at the University as a sight that he exclaimed 'que va a ver Vd?' Whether the Spanish visitor saw anything up to his expectations inside our Alma Mater is not reported, but it is clear that the porter of the establishment has a very vealy opinion of its attractions.

A gentleman in Calle Balcarce, named Justo, could not get a wink (much less 40) of sleep owing to the hum in the telephone wires, put on his roof without his consent. Driven half crazy, he rose, seized a hatchet, mounted to the roof, and post and wires went crashing into the street. Mr Justo then returned to bed and slept the sleep of the Just.

The Nogues hotel at Mercedes, we hear from a subscriber there, is now almost equal to any of our city hotels, such are the improvements recently effected by the spirited proprietor, in the way of new buildings, hot and cold baths etc The 'cordon bleu' is simply a Soyer. The 'Nogues's' at old Mercedes will soon be the crack hotel of the camp.

'Inquirer' requests us to mention the population of London at the last Census. Some months ago we had the figure at our fingers' ends, and published it, to decide a bet; but, in earning our daily crust, we have written so much that the figure has worn off our tips. We believe it is either, or between, 3,890,000 or 4,200,000 souls.

Mr Tauffenberger, the talented tenor of the French Opera Comp., will take his benefit to-morrow night in Giroñe-Girofla, his role in which suits him to a T, and we wish him a 'bumper,' which he well deserves.

One would think the world was two or three centuries younger than it is, on reading the queer stories published yesterday by the *Prensa* in reference to witches, and the roaring business they do in this city in love philtres, powders, etc. Fancy any girl, however, lovesick, believing that she could regain a fickle swain's affections by throwing a lot of soot on his clean shirt when he first steps across his threshold in the morning. An ex-lover who was so treated the other day laid his umbrella pretty stoutly across the fair one.

The watery telegrams from the camp yesterday were most distressing; shearing, the census, diligences, and almost everything stopped everywhere. The South camps are one Black Sea, and the loss of sheep is serious. At Tordillo there is a lake nine leagues square. At Saladillo there was a furious hurricane which lasted all Friday, Saturday and Sunday. Locusts have also appeared in that direction.

A colleague says that some 'little unpleasantness' has arisen in the Welsh colony at Chubut in reference to taking the Census, as even the youngest babies in the settlement want to be registered as Welshmen.

As a proof of the popularity of the Sunday Closing movement, we may mention that the sum total of the fines levied by the police on Sunday last for infraction of the Municipal edict was one hundred paper dollars, paid by two grocers in a small way.

Dr. Victor Martinez resigned his seat in the Supreme Provincial Court yesterday. We regret very much to hear that ill health has forced this distinguished magistrate to retire from the Bench.

An English imported bull which went up the river yesterday on board the steamer Jupiter weighs 86 arrobes! He is a splendid specimen of the British 'Bos.'

A meeting of the children of the American Church Sunday School, to prepare for the coming celebration, will be held in their Lecture Room this afternoon at 3.30.

Owing to the terrific rain in and around Chascomus last week, the Communion service at the Scotch Church had to be postponed until Sunday next, when the Revd. M. P. Ferguson will officiate.

We remind the members of the English Literary Society that they will have this evening the last chance, in a Free Discussion, of displaying their eloquence this season 'Practice makes perfect' in speaking more than in any other thing, and the improvement in the debating powers of the English Literary Society since the happy thought of Free Discussion was adopted is really most remarkable, and highly flattering to the members.

There was not quite so much about the Brander joke yesterday morning, but when the *Nacional* appeared, the public interest in this tremendous hoax was revived in a jump by the letter from Mr John Thomas Brander, father of the joker. We regret that we have not space to translate it; but we have something even better for to-morrow's issue, a letter recounting a Shakespearian hoax which throws the Branders, father and son, into total insignificance.

Messrs. Linck and Co. have bought the hull of the wrecked steamer Govino for 300 patacons, and her cargo for 3,500. They will make money on their bargain.

The new Municipal Bill was approved, 'en general,' by the National Senate on Monday.

Her Majesty the Queen, Messrs. Rothschild, Baring and Matheson, have each given £100 to the fund for the relief of the sufferers by the loss of the steamer Teuton.

Everything looked better on the Bolsa today, owing to the prevalent opinion that there was good news from Chile. Congress was summoned for to-day at Santiago, and some parties pretended to hold telegrams that at a preliminary session held, one of the Chilian Senators made a great speech in favor of the treaty, which had shattered the opposition. Although few placed much faith in this news, we note that the whole market is speculating on the news to reach here on Saturday of the treaty being approved; should contrary news come it would prove a dreadful change to everything, but from all we can gather the probabilities are that the Chilians will approve of the treaty, in which case a further drop in gold is anticipated.

Gold opened at 25.50, but could not be held at that figure. Some French produce gold was sold and this brought prices down to 25.45; cash sales, 28,000 pats. For end of month very heavy gold sales, 277,000 pats, opening at 25.50, rising to 25.55 and closing at 25.50. For Nov., Dec., Jan., Feb. and March gold was bought by the houses at 25.50, and we heard of one party who wanted to secure gold for every month in the ensuing year, but no sellers offered. Total gold sales, 587,000 pats.

In Cedulas the 'novedad' was the new Series E, the first lot being sold to-day, 5,000, at 80. Although this for a 6 o/o stock is relatively higher than Serie A, many people prefer to take the new Series since the amortization being at par there is always a certain gain of 20 o/o, and as they say several lots of the new Series will come in a few days on the market, some intend to sell SeriesA in order to buy Series E. In Series A very little done today, 36,200 sold cash all by outsiders at 98⅜; on time nil.

National Bank Shares look remarkably better, and if there comes good news from Chile they seem marked for 125, as the bulls have evidently got fresh money and fresh courage; prices opened for cash at 118⅜ and closed at 119. For Oct. 31st 7,800 shares sold, beginning at 119, dashing up to 120 and closing at 119¾. For Nov. there is now a strong market made, 2,600 shares sold, opening at 119½ and closing at 120. Those who sold short the other day for this date feel now rather nervous.

The floods in the South are subsiding, the train came in all right, and if the weather clears up now all will be right. At Ajo Mr Evans telegraphs there are no floods, which is the best of news.

The sales at the ring were—
For cash 28,000 25.55-45
For Oct. 19th 2,000 25.50
For Oct. 31st 277,000 25.50-55-50
For Nov. 30th 120,000 25.50
For Dec. 31st 100,000 25.50
For Jan. 31st, 1882, 20,000 25.50
For Feb. 28th do 20,000 25.50
For March 31st do 20,000 25.50
Sales, 587,000.
Cedulas—
For cash A 36,200 98⅜
For cash E 5,000 at 80
Sales, 41,200.
Nat. Bank Shares—
For cash 525 shares 118¾-119
For Oct. 31st 7,800 shares at 119-⅛-¼-⅜-120 to 119⅝
For Nov. 30th 5,600 shares 119⅛-120-119⅜ to 120
Sales, 13,925.

At afternoon Nat. Bank shares took a small run up; it seems that the bulls took up 350,000 pats on shares to-day at 9 per cent, the shares valued at 90, and if prices fall to 110, obliged to increase guarantee. Cedulas rule sellers 99, and buyers at 98⅜ for end of month, more sellers than buyers. Gold spite of everything did not give way; the news from Chile was fully speculated on, and everyone seemed to have the most favorable telegrams; the general report was THE TREATY WILL BE PRESENTED TO-DAY AND WILL BE ACCEPTED, but even more favorable and more decisive messages than this were said to have been received.

The news from London is tremendous, exchange on Antwerp in that market 25 80, which in the opinion of merchants and bankers means a crisis in the London money market, and a fresh advance in the Bank rate on Thursday. This news from London and the sudden rise in sovereigns in the Rio market inspires all the large men in this market with the greatest caution, and many anticipate that we shall witness the anomaly of the Chilian Question definitely settled, and an advance in gold. Gold at afterhours was done at 25.50, and buyers at 25.55 on long dates.

Bank shares were done freely at 120 for end of month, and at half past 4 o'clock some shares bought for 31st at 121, and for end Nov. at 120½.

Mr Smithers was enveloped in friends when he entered the hall; some two years have elapsed since he left; everyone was delighted to see him back. We believe that in a few days he will open his new bank in the temporary offices in Calle Cangallo.

It is reported that Messrs Woodgate are the agents of the new line of steamers to the Plate from Rotterdam and Bordeaux.

Dr Victor Martinez, Judge of Supreme Court, has resigned.

Three leagues of land near Guamini sold at 185,000 m/c per league.

Exchange was done at 49⅜, £5,000 stg.; other brokers report bills done at 49⅜, others say takers at 49⅜.

Picked cattle at Campana, from the Banda Oriental, offering at 340, not sold yet.

The German str. Baltimore clears to-morrow with 550 bales and a full coffee cargo awaiting in Rio. The Hohenstauffen with a crowd of wool men on board is expected on 24th to 25th; Mr Schleseper is amongst the passengers.

The news from Europe about wool will be seen in our telegram, and is not favorable. We hear that exporters have sent the following advices to Europe about the new clip:—

THE NEW CLIP HAS TURNED OUT INFERIOR AS COMPARED WITH LAST YEAR, WHICH WAS ONE OF OUR WORST.

It is rumoured on Change that the great coal business of Conceicao & Co., of Montevideo, is in the market; a splendid chance for capitalists.

Mr Ernest L. Ellreich, of New York, was welcomed on Change; he represents the Rubber Comb & Jewelry Co. of New York, and we have no doubt will do a good business here.

The Galicia left Rio on Saturday and is expected in Montevideo to-morrow. Mr Samson we hear is amongst the passengers.

The hull of the s.s. Govino was sold for 300 pats, and the cargo for 3500 pats, buyer Mr Humphreys for Mr Linck.

In Montevideo there is a let up in stocks; amortizable much speculated in, and up to 16; people here are afraid to dabble in Oriental stocks.

In the Once market the only arrival was a small lot of about 200 ar new wool from Zarate, which was sold by Messrs Unzue at reserved price, supposed to be 76.

Another lot of new wool which remained over from yesterday, 300 arrs., fetched 64. 700 arrs. old wool sold at 69-76.

Letters from the west report extremely heavy rains during the last days. All shearing stopped.

The Sales at afterhours were—

We recommend our friends to call at Baltar's and see Mr Church's colts to be sold to-morrow the 19th; there is one colt called San Blas that our turfites say will be the next winner of Mr Casey's Derby.

The coal market we hear is demoralized. The Government has bought 500 tons within last few days, prices not stated.

The mail has brought us the following about the renowned Wood's string-binding machines:

"String-binding Reapers.—It is estimated that over 150 binders are now at work in the harvest fields of Great Britain, Mr Walter A Wood alone having 80 string-binding machines at Long Sutton, Lincoln, and all doing satisfactory work. On some farms the binder has worked through the whole harvest without giving five minutes' trouble. At a trial on Friday by the Long Sutton Agricultural Society, Wood's machine cut six acres of wheat in less than five hours, and did not miss tying a single sheaf at the rate of one sheaf every 2½ seconds, excepting at the time when the ball of twine ran short and was replaced by another. There was, unfortunately, no competition, but the judges, Mr J G Hobson and Mr George Skelton, awarded the prize to Mr Wood for the great ingenuity and practical value of his machine."

The mails per Humboldt bring the following, which we extract from the London papers:

"The stoppage has been announced this week of the Northern Counties Bank, Limited, of Newcastle-on-Tyne, a small establishment which commenced operations twelve years ago with a paid-up capital of £21,690. The liabilities have not transpired; but the assets are stated to be sufficient to allay anxiety. The shareholders have received no dividend for some years, but a small sum has been added to the reserve fund.

"Mr Justice Kay, on Wednesday morning, on the application of Mr Greenwood, ordered a petition to wind-up this bank, to be in the paper for hearing next Wednesday.

"It was recently announced that the Governments of Canada and Brazil had accorded a subvention to a new steam navigation company for a line of steamers between those countries and Europe. The concession is granted to M Bentley, Consul-General for Brazil in Canada, who is now endeavouring to float a company in Paris for working the concession. The subsidy from each Government is fcs.250,000 a year, but it is only promised for three years by Canada, and for ten years by Brazil. The company is called the Atlantic French Postal Society. The capital demanded is five millions of francs, in 10,000 shares of fcs.500, of which M Bentley takes 2,000 fully paid-up shares for his concession, and 25 per cent of the profits after payment of 5 per cent.

"The traffic receipts of the B. Aires Great Southern Railway Co. for the week ending July 24th were £5,620, as compared with £7,064 in the corresponding period last year, showing a decrease of £1,444. The aggregate receipts at par from the 1st Jan. to date were £279,807, as against £236,833, being an increase of £42,974.

"The traffic returns of the Anglo-Argentine Tramways Co', Limited, for the week ended the 1st Aug. show an increase of £52, as compared with the corresponding period of last year.

"The traffic receipts of the Central Uruguay Railway Co. of Montevideo, for the week ending Aug. 6th, were £2,026, as compared with £1,666 for the corresponding period last year, showing an increase of £360. The aggregate receipts from 1st Jan. were £75,766, against £68,383, being an increase of £7,373.

"Argentine 9 o/o Treasury Bonds—

"To the Editor of the *Money Market Review*,

"Sir,

"Various letters have lately appeared in the daily newspapers signed by persons styling themselves holders of Argentine Bonds, in which it is suggested, firstly, to the Argentine Government that they can legally redeem the 9 o/o Treasury Bonds at par; and, secondly, that, failing legal authority, it is worth their while to do so in breach of contract.

"With regard to the first point, I should have thought that a holder of Treasury Bonds, at any rate, would have been convinced by the explicit statement of the Argentine Consul. According to the text of the law of issue, the Executive have to set aside yearly a sum equal to 4 o/o of the loan for the purposes of redemption. There is, however, no obligation on their part, or contract with the holders, to redeem. There is, on the other hand, no clause requiring a holder to surrender his Bonds at any price, whether above or below par, nor is there any provision for drawing the Bonds, but there is a contract to pay 9 o/o interest until redemption.

"The case cited of the U. Stated redeeming their Bonds at par is not in point, as there is expressed permission in the law of issue for this action. The other case mentioned—of the Hungarian conversion—is equally inappropriate, as these Bonds were even below par [taking the dividend into account]; the conversion, too, was with the consent of the bondholders.

"As regards the suggested breach of contract, it can never profit a Government to break faith. But, in this case, the gain would be ridiculously out of proportion to the loss of credit that would be sustained; the outstanding amount of the loan is under $5,000,000, or £1,000,000.

"There is some ground for thinking that the loan will be converted into a 6 o/o loan, viz., that the Government will offer to each holder of two 9 o/o Treasury Bonds three 6 o/o Bonds; thus the holders would receive the same amount in interest, and have no cause for protest.

"I attach extracts from the money columns of the Buenos Aires *Standard* of 28th July, which refer to the subject, since which telegraphic advices give 125 as the quotation ruling for these Bonds.

"I remain, &c.,
"ARGENTINE BONDHOLDER.

Freights in General—

As anticipated in our last we have had during the month a fair demand for small vessels to load hay, and two or three vessels have been called for to load flour in port for the Brazils.

Rates of freight remain unaltered, we quote for sailing vessels as follows—hay 2½ pats Rio Janeiro, order if sent to Santos, Bahia or Pernambuco 2½ pats. Crushed bones 19s in full orders U. K. Flour for Rio Janeiro 4 to 4½ pats in full, and small vessels are required at above rates.

Wheat—We have had very heavy rain during the month which has been prejudicial to the crops.

Steamers—Little cargo is offering at present; the rates of freight stand unchanged, but we may expect a rise shortly.

We close the month with 14 charters and no disengaged tonnage in port.

The following remarks by a New York financial colleague on the gold drain from England to the U. States may interest this market:—

"The most important amount of gold received from Europe since the decline in exchange to the specie importing point arrived to-day, the steamer Britannic having brought $1,216,656 in bars. If the cable advices regarding the shipments of specie from London and Paris of late have been correct, between $7,000,000 and $8,000,000 are still on the way, a large part of which will arrive this week and early next week. To-day $50,000 was withdrawn from the Bank of England for shipment to America, and the foreign exchanges continue favorable for further importations in the early future. It is thus seen that the advance in the Bank rate of discount from 3 to 4 o/o made on Thursday last has not proved effectual in stopping the flow of specie from London to this side, but private advices received here indicate a still higher Bank rate this week, inasmuch as there exist among the Directors of that institution an evident determination to check the movement if possible. While this may be the case it is difficult to understand what results the Directors expect from the loss of such an amount of bullion as had been generally supposed would be drawn for shipment hither, that such haste has been evinced in adopting measures to check the outflow. It is problematical whether the demands upon the Bank for American account would have been such as to seriously disturb the London money market, and while we can easily understand that the Directors should have an aversion to such another outflow of bullion as occurred in 1879 and 1880 it is questionable whether the course adopted has been politic at such an early stage of the movement. Not only does the advance in the Bank rate disturb the London markets but it tends directly to unsettle monetary affairs at all the Continental financial centres, and, moreover, the great banks of the latter have promptly resisted the efforts of the Bank of England to draw gold from the Continent to London England has a large trade balance to liquidate with this country, and as there is no immediate prospect of such an increase in her exports of merchandise to the U. States as to warrant the belief that the trade balance can be met in this way, it is evident that either gold or securities must be forwarded in payment. Any steps that may be taken to liquidate the balance of trade with securities must necessarily involve high rates for money at London and on the Continent, the effect of which would be much more harmful to the legitimate business of Great Britain than the export of 20,000,000 or $25,000,000 gold to this country."

The following are the latest advices from the U. States about wool received by the American mail just in:—

"With buyers not in very large attendance and most of the principal dealers unwilling to report their sales at this period of the week, the record of business is as yet only fair. Indications, however, are encouraging and the improved tone noted last Friday is well maintained, with holders very generally looking upon the position as tending to work gradually in their favor, and at least place values on a parity of the cost, at primary points. Expressions, however, are very largely of a conservative character still, with no special attempt or desire to see a sharp advance at the moment, and a generally good display of samples available. In this connection it may be well to note that recent reports sent out from this city representing the market as weak and depressed for two or three days, and then suddenly changing the tune to one of great cheerfulness, with 'confidence again taken possesion of the trade' and all that sort of extreme manner of expression, have not given a fair reflection of the position. There has been no such alternation of feeling for weeks, but simply a uniform tone, buyers bidding the rates asked when really in want of stock, and holders feeling confident that they had made all the concessions warranted and necessary, quietly sitting still to await the improvement now apparently coming to reward their patience. About 42 cents is high enough to quote for XX fleece, as a representation of what may be expected on the average, but some choice lots have done a trifle better. Scoured stock is in pretty good favor, and some of the best parcels of pulled wools are under close negotiation. Carpet wools continue in good demand and very firm."

El remate se efectuara en la misma quinta
La mas grande, hermoso y variada coleccion de coniferos pinos, toyas y aromas.
Edificio elegante y comodo
El Domingo 23 de Octubre
A las 3 en punto de la tarde

Procederemos a vender por orden y cuenta del Sr Dr D Amancio Pardo, la famosa quinta arriba espresada, situada frente a la estacion y plaza del Caballito; al Sud-Oeste calle por medio con esplendidas propiedades de los Sres Zuberbuhler, Zorraquin, Niebuhr y D. Ventura Fernandez, al Norte con el Banco Nacional, y por el otro costado con los Sres Josbery, Orma y Olivera.

Esta renombrada quinta esta situada en la parte mas elevada en 30 leguas a la redonda de la ciudad de Buenos Aires, razon por lo que en este paraje jamas ha habido un caso de epidemia.

El Parque Ingles, en cuyo centro se encuentra la casa, se compone de una superficie de 47,000 va cuadradas, y la base de venta por toda la gran quinta es la suma de 375,000 m|c en condiciones sumamente ventajosas para el comprador.

En ello se encuentran platas de un merito extraordinario, por su belleza y rareza. Un gran parque ingles, la mas vasta peluza, una coleccion de pinos, tuyas, aromos, la mas completa y hermosa que existe en el pais, y la fruta ha adquirido renombre.

El edificio perfectamente construido se compone de 5 grandes habitaciones comodas, ventiadas de gran altura, con ana galeria de vidrios de colores al Sud, de abrir y cerrar adoptable a todas las estaciones, y al Norte una magnifico vestibulo. A estas habitaciones sigue un esplendido patio cercado de una pared y rejas de fierro altisimo, encuadrandolo de un lado y de otro cuatro habitaciones, cocina, letrina y todas construidas con buen material, maderas duras, ademas al lado de afuera hay tres habitaciones para quintero y sirvientes.

En una palabra, esto es necesario verse para formar juicio, por cuya razon, escusamos entrar en minuciosos detalles.

El jardin frutal es de lo mejor del pais, por la excelente calidad de su fruta, como asi mismo lo escogido de las legumbres.

Para ver el plano, como para cualquier otro dato, ocurrir a nuestra casa, San Martin 51.

La quinta esta a disposicion de los que quieran inspeccionarla.

La venta se realizara en cuatro lotes o en uno solo, como los interesados lo pidan.

Y han sido recientemente practicadas espresamente para vender, por cuya razon son tan bajas, llamando en consecuencia la atencion de los especuladores pichincheros, y demas que andan a la pesca de las oportunidades para efectuar compras de ocasion.

El barrio Sud toma cada dia mayor incremento, las mas importantes obras nacionales se haran indudablemente en este costado, y el valor de todas estas propiedades se acrecentara rapidamente. El Campo de Marte esta ya cercado se haga en la quinta de Dielh. La Escuela de Artes y Oficios en la calle de Brasil y Matheu, el Hospital Frances, el Parque, depositos, cuarteles y muchos otros importantes edificios entre los cuales estaran dos ministerios nacionales, todas estas obras que dentro de breve tiempo adornaran la Capital haran quintuplicar el valor de la propiedad territorial, y es ya notorio el aumento de estos valores.

No hay, pues, mejor caja de ahorros ni Banco que de mejores interes, que emplear las economias en terrenos centricos que, como estos, poseen gas, tramways, aguas corrientes, empedrados, etc.

Los titulos son inmejarables, por planos y otros datos, ocurrir San Martin 51.

Venderemos por el precio que exceda de la pequeña base que se le ha fijado y por orden terminante de su dueño.

Seis leguas proximamente de campo que como hemos dicho dista solo 11 leguas del pueblo de Bahia Blanca y cual esta en la Provincia de Buenos Aires, lindando con la zanja del Fuerte Argentino lo cual lo garantee mucho mas que a cualquiera otro y viniendo a quedar su ubicacion entre este Fuerte y Puan.

Al campo lo cruzan dos caudalosos arroyos el Corta Pie y el Pelicura poseyendo a mas varias lagunas, por cuya razon, y por la escelencia de sus pastos tiernos, reconocidos como los mejores de aquel parage, resolvieron el general Garcia y Coronel Donovan en la expedicion, establecer alli las grandes invernadas del ejercito.

Por esta razon hemos rogado a estos dos gefes distinguidos se sirvan darnos sus informes, los cuales publicamos a continuacion.

Muy inmediata a este campo esta la concesion Plaza Montero pero es lindero con el gran establecimiento del Sr Ernesto Tornquist, que como se sabe esta todo poblado con edificios y haciendas y totalmente alambrado.

A mas todos los linderos que mas abajo se mencionan, tienen tambien, sin escepcion sus estancias pobladas y trabajando.

A este campo lo cruza el telegrafo y el camino real que va a Bahia Blanca, Guamini y Puan, pasando por su cento la galera que va a Carhue.

Para probar elocuentemonte que este es el mejor campo que se ha puesto hasta hoy en venta, basta decir que el Sr Ataliva Roca lo adquirio hacen 3 años, cuando recien se abrio la primera suscricion por cuya razon el num. de orded del titulo es el 12 lo que evidencia que el Sr Roca fue el primero de los que eligieron por los escelentes informes que tuvo.

Hay otra razon para garantir que ningun campo se encuentra en mejores condiciones de venta que este, y el que, como se sabe, el Gobierno Nacional piensa hacer funcionar el puerto de Bahia Blanca muy pronto y en esta virtud que muy pronto tambien funcionar dos saladeros que se construyen alli.

Este campo no tiene ningun gravamen, no adeuda nada al Gobierno.

En nuestra casa, se daran cartas ordenes para Bahia Blanca, donde estara una persona encargada de mostrar el campo.

Los titulos son de primer orden.

Los linderos y su ubicacion los siguientes.

Por su fondo al S.O. con el lote num 47 de D A Gonzalez Chaves; por el N. O. con el lote 35 de L A Burgos; por el S. E. con el num 5 del mismo Gonzalez Chaves.

El lote 6 y el 36 prima [que es el que esta en venta] linda por el N. O. con la zanja de la linea de frontera, teniendo por consiguiente la ventaja de tener un frente de defensa impenetrable.

Has informes a nuestra casa San Martin 51.

The Humboldt's Mails

London, Sept. 19th.

M. Roustan has had orders to return immediately to his duties in Tunis. This was after a long consultation with the Ministers in Paris. A denial is given to the rumours that France had consented to treat the Spanish victims at Saida separately. The rights of French sufferers during the Carlist and other wars have, it is asserted, been reserved, and the Governments were only able to arrive at an understanding after mutual concessions. The canal is reported as having been repaired, and Tunis is again well supplied with water. The Arabs retain their position round Zaghouan, but it is hoped the French will be able to march from Mahoubp soon. Large reinforcements continue to be sent from France. An official note, published in Paris, assures us that offensive operations will soon be commenced; the heat has been too great hitherto.

Our Paris correspondent states that there seems a general expectation that the negotiations to be begun to-day will end in the conclusion of a new commercial treaty. Our correspondent adds that he is in a position to state that the prolongation granted was not in any way conditional. The English delegates enter on their duties free from any sort of engagements.

According to a Vienna paper, a meeting is likely shortly to take place between the Emperors of Russia and Austria.

Prince Napoleon has not given up his pretensions to the French Throne in favour of his son. That was stated a few days ago by a journal supposed to be inspired by the Prince; but another paper, rejoicing in the name of 'Napoleon,' denies the rumour. The Prince himself has arrived in Constantinople, has had an interview with the Sultan, and is to meet the French Ambassador.

Our Vienna correspondent states that the Porte suggests arbitration for the settlement of the pending dispute between Turkey and Roumania respecting the Holy Places.

Matters still remain quiet in Egypt. The new Ministry have held their first Council, have been discussing the recommendations of the Army Commission, and will soon, so it is reported, begin considering about the total abolition of slavery. From Paris the rumour that France had proposed an Anglo French Military Commission is contradicted.

An outbreak of cholera is reported from the Russian frontier town of Krementz. The schools have been closed, and Austria has established a military cordon on the frontier.

Turkey has just been reminded by the Ambassadors in Constantinople that the question of reforms in Armenia still remains unsettled. They ask that a Commissioner, entrusted with full powers, should be speedily despatched.

There seems some hitch in the final settlement of the Greek frontier, and the Turkish Commissioners, it is said, refuse to withdraw the troops from the lines fixed between Kritiri and Zarkos. A protest has been lodged against this conduct, and there will probably be a good deal of discussion over the business.

It is reported from Constantinople that the Porte is preparing a scheme for dealing with the Russian war indemnity altogether apart from the arrangement for the bondholders. Russia has suggested that the Bulgarian tribute should be applied in paying the indemnity.

At the last meeting of the Geographical Congress in Venice, a resolution was unanimously carried in favour of the prompt execution of the Canal through the Isthmus of Corinth.

Ayoub Khan has as yet declined a general engagement with the Ameer, though the latter is said to have daily offered battle. There have, however, been frequent cavalry skirmishes. The Cabul troops in Candahar are deserting in small parties.

Mr Blackburne stands first in the chess tournament just concluded in Berlin. M. Zukertort takes the second prize.

Saturday saw the conclusion of the Land League Convention in Dublin. The position of the labourers was the main subject of discussion, and, at the instigation of Mr. Parnell, the convention instructed the League to take the labourers under their wing; to seek to procure for them good houses, plots of ground and cows to 'give milk free.' One gentleman expressed a hope that the day would soon come when the island might be unfastened from its moorings and go to some happier region where England would never get a glimpse of her. It was suggested that Mr. Parnell and Mr. T. P. O'Connor should make a sort of explanatory tour in America; but the former declared matters in too unsettled a condition here to allow him to go to the United States.

Lord Randolph Churchill has been speaking at Oldham in condemnation of the home, foreign and financial policy of the Government, likening the work of last session to an Armstrong gun which had gone off, and out of the smoke and the noise and the destruction had evolved 'that fantastic creation,' the Irish Land Act. But it was on the subject of Free Trade that Lord Randolph dilated most. He would have none of it; but tax all foreign manufactured articles. Thus would they gain a good fifteen or twenty millions a year, and so would be able to remove the burdens which were at present crushing agriculture.

A very extraordinary case of abduction is at present under consideration by the police, The Rev. R. Bruce Kennard, rector of Marnhull, Dorsetshire, was engaged to be married to a Miss Bade, living with her father at Woodford. The marriage was to have taken place on Wednesday, but the day before that the rev. gentleman was hurried away from the hotel where he was staying in Woodford, by persons representing themselves as a doctor and two keepers, who gave out that they were taking him to a lunatic asylum. The marriage party assembled at the church on Wednesday, but Mr. Kennard did not appear. Next day, however, he contrived to escape, but it was only by paying a large bribe to his gaoler—the prime mover in the conspiracy being absent—that he was enabled once more to join his friends. The wedding was celebrated on Friday.

Decided firmness was manifested in the stock markets on Saturday, and English railways were generally higher. Tilbury, Midland and South-Eastern 'A' were in especial demand. Canadian lines improved, but American scarcely varied. Consols advanced ⅛ to 3-16 per cent. The variations in foreign bonds comprised a rise in Hungarian, Italian, Russian and Spanish, and a decline in Egyptian and Mexican.

TERRIBLE OUTRAGE IN DUBLIN.

A savage attempt to murder a policeman was made in Dublin yesterday morning. Police-constable Daly, with another of the force, was walking up Moore-street, when they observed a man fighting with some others. The policemen interfered, and arrested one of the number. In a moment a crowd gathered, and Daly was struck from behind with a butcher's cleaver, which inflicted a fearful wound, cutting him through the helmet and into the brain. He fell apparently dead on the pavement. Some other constables came up, while Daly's companion was using his baton freely to defend his companion's body. A number of prisoners were made, and Daly was at once taken to Jervis-street Hospital, where Dr Chance attended him. Dr M'Blain, divisional magistrate, came to take Daly's depositions, but the hospital surgeon, Dr Chance, thought that the taking of the depositions would endanger Daly's life, and forbade him to speak to the magistrate. About an hour later Daly rallied, and a priest was sent for. It was stated last evening that there was no hope of the man being saved, and he received the last sacrament.

In the afternoon, at the police court, Peter Duff, aged thirty-five years, and who was described as a butcher's porter, was put forward charged with the attack on Daly. It was stated in evidence that the policeman's skull was cleft open. The policemen who were present declared that the crowd numbered fully three hundred persons. The attack made upon them was most fierce, and although the riot only lasted a short time, it was very determined. The constable who was in Daly's company stated that he had arrested a man named White for disorderly conduct, when the prisoner Duff rushed out of Sackville lane, off Moore-street, with a large butcher's cleaver in his hand. Constable Daly was keeping back the crowd. Duff began to shout. A witness called on Daly to mind the man with the knife. On uttering the words the witness was knocked down. On rising he saw Constable Daly and the prisoner Duff on the ground. When Daly got up from the ground witness saw his face was covered with blood. The butcher's knife was lying on the ground at his feet. Witness called out to Sergeant Connell, who just then arrived, to pick up the knife, but some person in the crowd had taken it away, and they could not find it. They then arrested Duff, and both prisoners were brought to the police station. The police inspector, replying to the magistrate, said that Daly was just alive and no more. Duff and three other prisoners who had been arrested were then remanded.

A later telegram states that Daly died last evening.

THE CHACO AND SANTIAGO

Club de Residentes Estrangeros,
Buenos Ayres, Sept, 17, 1881.

Dear *Standard*,

In your issue of yesterday I observe a misstatement in your Rosario Correspondent's article that I think ought not to pass unchallenged. In comparing the soils of the Gran Chaco and Santiago del Estero with those of Santa Fe, your correspondent gives the preference to that of the two former, on the ground that they contain more clay, and goes on to state that on that account those localities would be more favourable to agriculturists than that of the latter. In the case of the Gran Chaco this may possibly be the case, but had your Rosario correspondent seen as much of Santiago del Estero as I have had occasion to do, he would at once admit its unsuitability as an agricultural province—the whole surface of which (with hardly an exception) is covered by dense forests, with an almost impenetrable undergrowth of scrub. The Santiagueños, with their primitive implements, sow, it is true, wheat, maize and zapallos, which, together with algaroba, forms their staple food. They rarely, however, cultivate more than half a square of land, and this only when the dense forests clears enough to admit the plough, between the stumps of the standing and fallen trees. In the mountainous portions of the province agriculture would be an impossibility, and the only portions where it is at all feasible is on the banks of the two Rivers Saladillo and Salado; they being unlike our rivers here, void of trees, but at the distance of a few squares one again enters upon the interminable forests which cover throughout the face of this province. The soil of which your correspondent speaks so highly is of the sandest description, and without irrigation, useless for agriculture.

Santiago suffers also very severely from drought, there being rarely, if ever, a rain-fall during the winter months. The forests also teem with wild pigs, whose nocturnal ravages in numbers of forty to fifty on the 'chacra' lands tend to make the agriculturist's life aught but pleasant.

By day countless flocks of parrots scream around the ripening grain, from morn till eve, which, if left to themselves, would completely destroy the standing crop. Well *Standard*, having such splendid camps in other parts of the Republic suited well for agriculturists, without stick or stone to impede the plough's progress, let us not think yet awhile of going so far afield. Santiago is rich in timbers, and in parts very suitable for stock; sugar-cane also, where irrigation is possible, seems likely to be a gaining industry.

I am sorry your Rosario correspondent, whose articles I read always with interest, should have been led doubtless by erroneous information, into making a statement so far from being the fact.

I am, dear *Standard*,
Yours obediently,
W. M.

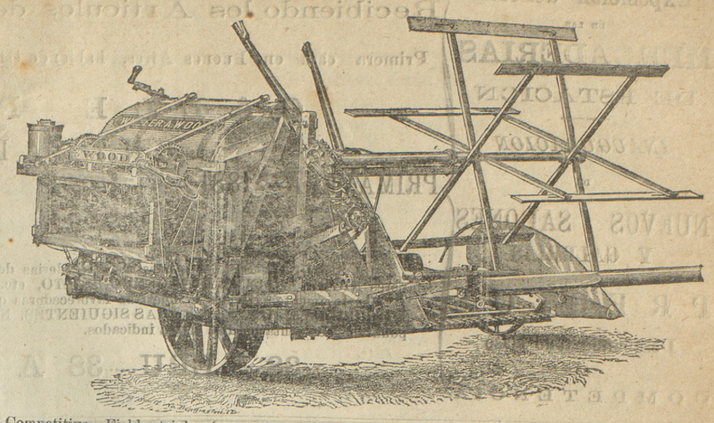
WALTER A. WOOD'S HARVESTING MACHINES



A Competitive Field trial of Automatic Binders was held at Melbourne, in the Province of Victoria, Australia, on the 29th day of November, 1880, under the auspices of the Melbourne International Exhibition and in connection therewith, but under the direction and charge of the National Agricultural Society of Victoria.
The Machines entered for competition were:—
Walter A. Wood's Twine Binder,
Osborne's Wire Binder, Osborne's Twine Binder, McCormack's Wire Binder, McCormack's Twine Binder, Deering's Twine Binder.
(The judges in making their awards did not take into account the material used in binding, whether Wire or Twine, but were governed by the merits of the machine and quality of work done.)
Result of the Trial:
Walter A. Wood's Twine Binder
Was awarded the FIRST PRIZE.

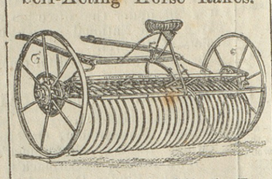
HOWARD'S CELEBRATED MACHINES

Howards' Self-Acting Horse Rakes.



The above were the first Self-acting Horse Rakes which secured public favour, and owing to their extrordinary success various attempts have been made to imitate them, but J. & F. Howard's simple brake principle—Patented—is so instantaneous in action, that all the contrivances introduced by others for effecting the same object are in comparison but complicated expedients.

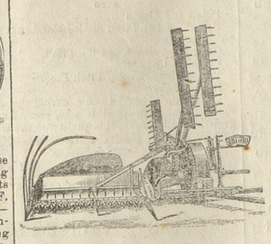
Howard's New Patent Simplex Mower.

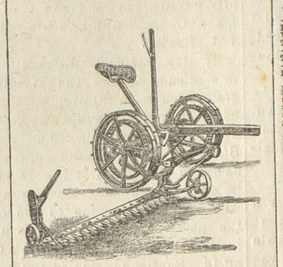


J. & F. HOWARD'S Simplex Mower is one of the lightest machines ever produced. It is from its construction remarkably strong, and has been found to be capable not only of cutting the heaviest crops, but of standing the roughest usage. J. & F. HOWARD'S patented principle of *open gearing* is adopted. This gearing, among other advantages, is light in weight, of great strength, and not liable, as other gearing, to get clogged with the cut grass, there being no cogs to catch it, and no shield therefore is required.

Prices in England.

With two Knives, Spring Seat, and Tool Box, containing all requisites for use in the field, weight 6 cwt. £18 0 0

Howard's New Patent Simplex Reaper



J. & F. HOWARD'S Simplex Reaper is in every way constructed to meet the demand for a light, but strong Reaper. It has a large travelling wheel, and having the fewest possible wearing parts, its value, especially where repairs are difficult to execute, can hardly be overstated. The experience of several harvests with large numbers of these Machines, both at home and abroad, and the distinguished place they have obtained in public trial fields, have fully demonstrated their superiority.

Prices in England.

With two Knives, Seat and Tool Box, containing all requisites for use in the field, weight 10½ cwt £29

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

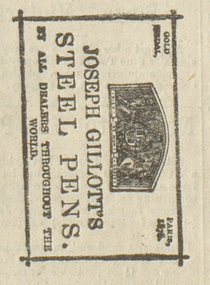
The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.



ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWCIK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d,; boxes, 6d. and 1s. each. (a)
